

## An Appeal to Wool Growers.

Hon. Columbus Delano, President of the National Wool Growers' Association, from his home in Ohio, addresses the wool growers of the nation in language as follows: "The sentiment favoring free trade has been augmented to the extent of the President's influence. In announcing his sympathy with those who do not encourage American industries and domestic labor, the executive has emphasized his contempt for your industry by proposing the repeal of all duties on imported wools.

You number about one million voters and give employment to about one million more. Every State and nearly every county in each State of the United States has flocks and flock-masters. Your flocks generally are small, your wealth limited and location so scattered as to render organization and united action difficult. Once the producers of 300,000,000 pounds of wool annually, valued at about one hundred million of dollars, you have seen the unfriendly legislation of 1883. Check your growth, and you actually reduce your flocks in number and your annual clip in quantity, to the extent of 15 per cent. These results followed the small reduction of protective duties.

Now the President proposes their abolition, so that South America and Australia, with other foreign nations, can supply the consumption of the United States spindles and looms. Officers of your national society desire to organize resistance to the cruel attempt. In order to secure its defeat by active consolidated resistance, I advise that you petition Congress freely from all parts of the country. Send letters to Congressmen from every district, have each association of wool growers, State, county, township, or town, pass and forward appropriate resolutions; invite grangers, or associations or husbandmen, to unite their voices with yours in urging Congress to promote the welfare of agriculture.

Enfranchised freemen may obtain justice and avoid oppression by making those in authority understand their wants. If you have not as large consolidated wealth you have votes. Exercise wisely the power which the privilege given by the founders of our republic placed in the hands of its people, the power to correct the errors of those who make or administer our laws without insurrection or violence. The executive has been misled. Remove the deception and let him and the nation know that you will not submit to the proposed injustice without a resolute struggle."

### Glanders in Lyon County.

Glanders have broken out in Lyon county, near Dayton, during the past few weeks, and over 20 horses have been taken with it. The disease was brought over here from California by a man who sold some infected stage horses to a rancher near Dayton. He sold in turn to James Austin, who also sold to T. B. Smith. The result is that 13 horses have been shot and more will have to go. Dr. Trullinger went before the Board of Commissioners in Lyon, asking that action be taken, but the District Attorney held that they had no power. There is a law, however, governing such cases. Some of Smith's infected horses have been fed recently in one of the hay yards of this city. The Commissioners of this county should take immediate action or there will be a run of glanders in this county.

Yesterday J. Nichol, the thoroughbred horseman of Mason Valley, came before the Board of Commissioners and stated that the disease was on at least ten ranches of Mason valley, and it would become necessary for all counties adjoining to take immediate steps. The Board said it was ready to co-operate with any other county that would take the initial steps. It was proposed to appoint Dr. Trullinger as a veterinary surgeon to go through the State and pick out the infected horses and superintend their killing. The Board held that under the law it was necessary to have some competent man in authority to diagnose the disease.

## WHO WROTE SHAKESPEARE?

How the Element of "Doubt" Leads to Grand Achievements.

The world is agitated again over the question of who was the author of Shakespeare's plays. The world is full of doubting Thomases.

The man who has been successful in exciting the present momentary interest in the subject is like most successful agitators, an Irishman. He claims to have discovered a cipher running through the Shakespearean plays which proves them to have been written by Lord Bacon. It is also claimed that there is a cipher in the epitaph on the mossgrown tombstone which, properly interpreted, leads to the same conclusion.

This age shows a decided inclination to try its mysteries. It can make no difference to Shakespeare now whether the world believes he wrote the plays that bear his name or not.

The plays are immortal. Ignoring Doubt cannot rob us of the grand works, even though he should succeed in robbing Shakespeare of his glory.

Were it not for doubting Thomases many of man's great accomplishments would never have been brought to successful issue.

Men have been stricken down without warning. Doubt put in motion the investigation which ascertained the cause. After the discovery of the cause, the world was ignorant of any remedy with which to stay the terrible slaughter of humanity, and medical science said it was impossible. Doubt led the way to the light, and Warner's safe cure solved the seemingly unsolvable problem. Its friends tell us with conclusive proof that the unsuspected kidney disease befalls the blood and causes most of our diseases!

For years the heart was looked upon as the most important organ in the body but doubt led to further inquiry, which developed the fact that the kidneys are the real blood purifiers of the system and these organs now attract the first attention of the careful practitioner. It is now a recognized fact that if they are put in a healthy state by the use of that remedy possessing such wonderful curative and cleansing powers, most of the prevailing diseases of the system will be easily overcome, since their cause will be removed.

How unimportant, in comparison with such problems, is the present discussion as to the authorship of Shakespeare!

## RIO BONITO COLONY!

LANDS FAMED FOR RICHNESS

Along the Feather River.

GROVES OF MAMMOTH OAKS OF SURPASSING BEAUTY.

Best of Soils for Oranges, Lemons, Figs, Peaches, Cherries, and all Tropical and other Fruits.

RIO BONITO COLONY LANDS ARE LOCATED IN BUTTE COUNTY, California, and along the prettiest part of Feather River. They are about eight miles south of Oroville, three miles from Gridley, and two miles from Biggs, on the Oregon and California Railroad, and seventy-three miles from Sacramento. There are growing on the lands white oak trees, some of which are thirty-five feet in circumference. The soil is a rich, sandy loam, and cannot be surpassed in productivity. Citrus and all kinds of deciduous fruits ripen here to perfection. Rio Bonito Colony Lands are a garden spot, and are certain to be the most popular for homes of any to be found in Central California.

Testimonials on the Land by Leading Butte County Citizens and others.

I have been over your tract of land on the Feather River a hundred times. There is no better land and no better place for a colony in the world.

JOHN S. GILSON, Real Estate Agent, Reno, Nev.

As good land as there is in Butte County.

JOHN BEALL, Biggs.

As fine a piece of land as there is in this county. First-class for cereals and fruits.

L. D. FREER, Judge Superior Court, Oroville.

Have lived on this land for nearly twenty years. No more healthy climate in the world.

M. BIGGS, Jr., Biggs.

It will produce, without irrigation, any of the fruits grown in any part of the State of California.

—Miggs Argus.

No richer land can be found in all California.—Oroville Register.

As fertile and valuable tract of land as there is in Butte County. Just the kind of land for fruit culture; there is none better.

JACOB KRUSICK, Gridley.

It is all splendid fruit land without irrigation.

WM. SHARKEY, Biggs.

I regard your tract as the best body of land in California.

GEO. W. CRUM, Battle Mountain, Nev.

One of the finest bodies of land in the world; there is no bottom to the soil, and every inch of it is rich.

—Oroville Mercury.

A body of land as valuable and well adapted for all purposes of agriculture, especially fruit raising, as any land known to me.

G. K. SMITH, Banker, Biggs.

This section of Butte County is one of the best in California for fruit culture. Such land as this, if set out to fruits, would, at the end of three years, be estimated, be worth at least \$500 per acre. At this rate, twenty acres in fruit within three years would be worth \$10,000. The managers will take charge of the setting out of fruit trees for purchasers of land, and at the actual cost of doing the same.

The land is now for sale in tracts to suit at \$100 per acre, on easy terms, one-third cash; balance in one, two and three years at eight per cent. per annum.

Buy ticket to Biggs. Fare from San Francisco, \$5.20; from Sacramento, \$2.20. Stages from Oroville to Biggs pass the land daily. Send for circulars.

MONDAY, JANUARY 9, 1888

THE findings of the Coroner's Jury in the case of the young man killed by the train on the V. & T. near Gold Hill last Wednesday were not unanimous. A minority verdict was presented wherein the railroad company was charged with carelessness, in not keeping men employed at obscure points along the road to warn persons of the approach of trains. This minority verdict does not seem to be in the proper spirit. A railway company for its own protection, the protection of its property, and the security of its operating employees and safe transportation of its passengers, does everything it can to prevent accidents of any and all kinds. The unfortunate young man in its employ on the track would certainly be protected by it if possible, for even a soulless corporation has no desire to take life. Therefore, it does not seem just that the company should be charged with willful or criminal carelessness when evidence was produced showing that all ordinary precautions had been taken, and that the deplorable accident was unforeseen and caused by circumstances over which none of the railroad operatives had the least control.

THE noxious animal law is knocking a hole in the finances of Lander county. Last month the Commissioners paid out \$624.45 bounty for scalps. This amount they think is too large, and as only \$64 of it was paid to white men, the guileless red man is thought to be a little knavish. In the adjoining counties the Commissioners have refused to pay Indians for any large numbers of scalps, and the Indians, finding Lander more liberal, have concentrated their efforts toward bankrupting it. They have no hesitation about swearing the animals, whose scalps they present, were taken in Lander county, when in reality they had been obtained in all the surrounding counties. The District Attorney intends taking a hand and assist the Commissioners, and the people are intending to pledge their next set of legislators to work for the repeal of the law.

ANOTHER column contains a communication from Thomas J. Tennant, of Carson City, relative to Nevada and her citizens' claims against the General Government, for war claims and losses by Indians. Senator Stewart's bill is to let everybody in regardless of date or State legislation, while the United States Treasury is overflowing. Mr. Tennant has thoroughly familiarized himself with every detail and condition connected with the formula and preparation of claims before the Government Departments, and to persons having claims of this character we cheerfully recommend him.

TO-DAY'S dispatches foreshadow the support of Lamar's confirmation by Senator Stewart. He gives as a reason that he does not desire to make a more solidly solid South with the addition of New York, and appeals to the great Republican States of the North and West to see it in the same light he does, and prove to the South that sectional lines are wiped out.

THE Lyon County Times has entered upon a new volume. The Times has been an industrious advocate of the interests of Lyon county for fourteen years and should receive the support of every citizen of that county, not only for the good work it has done but for what it will do in future years.

Condition of Cattle.  
While the Winter has been unusually severe in the western part of the State, stockmen do not anticipate much loss, although advice agree that many old cows have succumbed. From stockmen, who have lately come in from the East, the GAZETTE also learns that now lies deep on the ranges and in the valleys, and should the storm continue, and a freeze-up result, a great many cattle will go under. The loss will be heavier on the smaller stockmen who are unable to prepare for Winter feeding. In Squaw, Independence, Ruby, Clover, and several other valleys, which are occupied by wealthy cattlemen, an ample supply of hay has been stacked, and it will have to be an unusually severe Winter to cause loss.

A large number of cattle are being fed in Smith's Valley, Lyon county, now by the ranchmen. They are nearly all owned there and are reported in fine condition.

## WAR AND INDIAN CLAIMS.

What should be included in Senator Stewart's Bill.

EDITORS GAZETTE:—In your issue of the 5th inst., I find the bill introduced by Senator Stewart, amendatory of the several Acts of Congress relative to proving up War claims and losses sustained by Indian depredations in certain States and Territories. The bill so far as it goes is all right, but does not touch certain cases in which the people of Nevada are largely and vitally interested.

The Senator in his zeal to do something for his constituents does not exactly go off half-cocked in introducing his bill at so early a date, but lacks information as to the status of the different claims intended to come within the scope of his bill. It embraces our War claims of the Rebellion, the White Pine and Elko Indian War claims, the Humboldt and Lander county depredation claims, the claim of Geo. W. Chedie, John C. Daniels, S. A. Nevers and about one half of the claim of John S. Child, but does not cover any of the Platte War claims of 1860, the claims of Frank Hall nor the claim of Stephen A. Kinsey, from the fact that under no construction of his bill can any claim arising in Utah (while we were in Utah Territory) be considered under the provisions of his amendatory Act. To remedy this defect I have prepared and forwarded to the Senator the following amendment to be added to Section 6, to wit:

"Provided that all unsettled claims, that accrued within that portion of Utah Territory, now embraced within the State of Nevada, shall be included within the provisions of this Act."

Governor Stevenson has also forwarded a copy of the same, explaining the necessity of its adoption. The agitation of this matter by our Legislature for two sessions past was more directly intended for the Platte War claims, while the Lander and Humboldt county claims and individual claims were not entirely out of sight. The letter of Governor Stevenson to President Cleveland was mainly conceived in the interest of Platte War claims, but embodied the different classes above mentioned.

Mr. Dornier, of the State Board of Examiners, will remember that the Platte War claims forwarded nearly three years ago to the Board acted by the Secretary of War, were returned, as the Act of 1861, (the Platte War occurring in 1860), did not give the Board jurisdiction as to date or locality.

Sensor Stewart's bill cures the date, but omits the required jurisdiction as to locality. The amendment I have forwarded makes the bill perfect and permits any person, regardless of date of claim, or enactment by the Nevada Legislature, to present his claim to the Board constituted under the provisions of Senator Stewart's amendatory Act.

THOMAS J. TENNANT.

## THE BIGGS BOOM.

A Fruit-Growers Union Formed by the Citizens.

From all accounts Messrs. Preble & Young have struck a bonanza in their Rio Bonito scheme, if the following from the Chico Enterprise, is indicative of the feeling of old residents in that section in regard to the home of the orange and olive. When residents of a locality become "enthused" there is but little doubt but what the average tenderfoot wending his way westward will become "enthused" also.

A meeting of three hundred citizens was held at Biggs last night, at Hamilton hall, to organize a Fruit Growers' Association. Speeches were made by W. A. Walker, Wm. Sharkey, Daniel Streeter, G. Smith, T. R. Fleming and C. S. Young. The greatest enthusiasm prevailed. The following resolutions were passed unanimously:

Resolved, That this rich section of Battle county along the Feather river leads the State in the opportunities afforded for fruit growing, and that this industry should be encouraged by the people of the town of Biggs, be it  
Resolved, That it is the sense of this meeting that a Fruit Growers' Association be at once formed here, and that in the interest of this section of the country there be set out this season by this Association five hundred acres in fruit trees. Be it further  
Resolved, That knowing there are no better lands for fruit culture in the world than the lands of the Rio Bonito Colony, a committee of five citizens be appointed from this body to ascertain on what terms 500 acres of the land for the purpose may be obtained from the managers of that colony.

At the close of the meeting, and within thirty minutes' time, pledges were made on the part of the citizens to take shares enough in the Association to insure the setting out this season of nearly 400 acres, and it is believed by to-morrow night, enough will be subscribed to guarantee the setting out of 500 acres.

## It Pays Mono County.

It is well worth noting the result of the sheep license ordinance in Mono county. The Bodie Miner makes the following report: "Sheriff Wat Morgan, who is ex-officio Tax-Collector, has collected to date, under the Mono county sheep license ordinance, the sum of \$4,275; and to this may be added \$750 in penalties, aggregating \$5,025. The cost of these collections will be about \$300, thus leaving the county a clear gain by about \$4,725 of taxes on a class of property which has heretofore paid no tribute into the county for benefits received and liberties enjoyed."

## Never Travel Without Them.

Persons should never travel without a box of Brandreth's Pills. A few doses taken before going on a ship will prevent sea sickness, and one Pill every night on ship-board will counteract the excessive action of the sea air. When sick, troubled with pains, colds, or diarrhoea, or having rheumatism take from three to five Pills and if they do not operate in an hour or so take three or four more.

## NEWS OF THE DAY.

[PRESS DISPATCHES TO THE GAZETTE.]

## NEVADA'S SENATOR.

Stewart Will Vote for Lamar's Confirmation.

NEW YORK, January 9.—The Times this morning publishes a three-column leader from Senator Stewart, of Nevada, on the subject of the confirmation of Lamar. Stewart reviews at length the record of Lamar since the close of the war, and says: "I know of no other man who bore arms against the United States in the late war who has so unreservedly accepted the verdict of the decision by arms and so unequivocally and continuously maintained the validity of the new amendment to the Constitution as Lamar. He is disqualified to fill the office of Justice of the Supreme Court by reason of his participation in the late war. No person who bore arms against the United States can ever become eligible to that office." The Nevada Senator in closing says: "The public press has so framed the issue that the rejection of Lamar will be construed by the North and South as a declaration that his participation in the war disqualified him and all others occupying the same position, for a place on the Supreme Bench. I appeal to the representatives of the great Republican States of the North and West not to lend their influence to cement the union between New York and the South. Why should the South and West separate on questions involving their material interests, when those interests are identical? Why should the South be compelled to do the bidding of a single city of the North, and her people be subjected to policies adverse to her most vital interests, under a supposed necessity for resisting the proscription policy of the Republican party, when that party has never had such a policy but on the contrary has been, and now is, and must continue to be the friend of the South,—always ready and willing to aid her in the development of her prosperity. Unless a very different case can be presented against Lamar from anything which has come under my observation, I shall deem it my duty to vote for his confirmation and I advise other Republican Senators to also do so."

## Contending Cable Companies.

PARIS, Jan. 9.—The Tribunal of Commerce has delivered a judgment ordering the French Cable Company to conform to the conditions of its agreement with the Anglo-American Company, and to pay all costs and certain amount for damages per day for each day's delay in carrying out the agreement.

## The Nomination of Lamar.

WASHINGTON, Jan. 9.—The Senate Judiciary Committee further considered this morning the nomination of Lamar. The time was chiefly consumed by Senator Everts, who opposed the confirmation. He was rather sharply questioned by Democratic Senators and rebuffed in kind. All the members of the Committee were present except Wilson, of Iowa, and Vest, who are paired. It is in contemplation, among the members of Lamar, to proceed with the cases of Vilas and Dickinson without respect to that of Lamar, all the members of the Committee having expressed themselves on the Lamar case. In Committee no doubt is entertained that there will be a majority and minority report.

## Bad Waste of Good "Stuff."

J. B. Francis, of the Wieland brewery depot, is the maddest man in town. The cold snap has played sad havoc with the bottled beer in stock, and the scene in the storeroom baffles description. Every bottle and glass containing fluid bursted to-day with the traditional dull thud, and the floor is littered with fragments of glass and congealed beer. The loss is estimated at \$500.

## Peace on Earth.

Awaits that countless army of martyrs whose ranks are constantly recruited from the victims of nervousness and nervous diseases. The price of the boon is a systematic course of Hostetter's Stomach Bitters, the finest and most genial of tonic nervines, pursued with reasonable persistence. Easier, pleasanter and safer than to swash the victimizing department with pseudo-tonics, alcoholic or the reverse, beef extracts, nerve foods, narcotics, sedatives and potencies in disguise. "Tired nature's sweet restorer, balmy sleep," is the providential recuperant of weak nerves, and this glorious franchise being usually the consequence of sound digestion and increased vigor, the great stomachic which insures both is productive also of repose at the required time. Not unrefreshed awakens the individual who uses it, but vigorous, clear-headed and tranquil. Use the Bitters also in fever and ague, rheumatism, kidney troubles, constipation and biliousness.

## Notice.

Until further notice both circuits of the electric light will be cut out at 9 o'clock P. M. This is rendered necessary by the cold weather, which freezes every night the water in the ditch from which power is obtained. In a few days steam power will be put in, and ample light and service will be given.

## Obituary.

It becomes our sad duty to chronicle the death of Mrs. Lucinda Strawbridge, who departed this life on the 5th instant after an illness of long and patient suffering. The deceased was a native of Pennsylvania and leaves behind her two sons (Wm. B. and David H. Strawbridge) to mourn her loss.

**The Reduction Works.**

Now that the claim of the Reduction works against the State has been sustained by law, it is the intention of the managers to increase their plant. Work will in all probability be soon commenced, as it is desired that all improvements should be completed by next Summer. A copper smelter will be put in, as there is not enough lead in the country to warrant the putting in of additional lead smelters. The recent rise in copper and the great demand for that commodity should be an incentive to miners to open up Nevada copper deposits and the proposed improvement of the company will insure a market for all that is offered.

**For Congress.**

The political prophet of the Carson Tribune discourses as follows: As it is given out that Congressman Woodburn does not wish to succeed himself, aspirants are dropping out in all parts of the State. Senator Foulke, of Elko; Senator Foley, of Eureka; C. B. Young, of Washoe; and Jim Stephens, of Storey, are willing to serve the "dear people" in that capacity. The friends of Senator Evan Williams, of our, are endeavoring to induce him to enter the arena. Williams can knock the proposition if he will only say the word.

**PARON'S FLIGHT.**

**A Masked Mob Brutally Mistreats A Citizen of Eureka.**

A correspondent at Eureka, under date of January 8th, states that last Tuesday evening Phil Paroni, a well-known butcher and old-time resident of that place, was taken from his house by masked men and most inhumanly treated. GAZETTE readers will remember reading, from time to time during the past two months, items relative to the cause which led up to the exhibition of barbarity, which, in brief, are as follows: About two months ago Paroni was accused of having committed rape, sometime last February, on the person of a fifteen-year-old girl named Kuehn. Paroni has undergone three examinations in the courts for the alleged offense, but on each occasion he was acquitted on the night mentioned a dozen masked men entered and seized Paroni, who lived in the heart of town, and marched him, hatless and coatless, along some of the principal streets to the crest of the mountain west of town. They had not proceeded far when they gagged him to prevent him making an outcry.

Arrived at the top of the hill, the men stripped Paroni to the waist and beat him on the head, shoulders and body with a coating of tar. In the absence of feathers they covered him with scraps of paper. They then talked of setting fire to the paper and tar, and thus roasting the man alive, but finally his hands were tied behind him, and he was sold to leave the country and never return to Eureka on pain of being instantly killed.

He made his way to Diamond Station, a distance of 12 miles, where he arrived more dead than alive. The section boss of the Eureka and Palmdale Railroad took him in and kindly cared for him.

Paroni did not heed the warning, and two days later he returned, determined to punish his persecutors. He recognized all who participated in the outrage, and it is stated the list comprises some well-known citizens. A great sensation is promised when their names are made public.

**UGH! IT'S COLD.**

Evidence that the Cold Wave is on its Way Westward.

The cold wave is gradually working its way westward, and the prospect for a good cold snap in Reno, such as is experienced in the East, is good. The thermometer has bobbed from 4 to 11 degrees below zero the past ten days, the latter having been reached this morning, and weather experts predict the record will be lowered ere long. Passengers from the East this morning were shivered up with cold, and the tattoo of their teeth as they walked to and fro on Lovers' walk, sounded like one of Nate Bell's drum solos. From a thawed-out Pullman porter a GAZETTE reporter learned that at Carlin the thermometer registered 34 degrees below zero, at Halleck 38, at Winnemucca 22, and at Wadsworth 17. From another source it was learned that at Truckee the mercury touched the notch at 23 degrees. From the above returns it may be seen that Reno can still lay claim to be the leading Winter resort of the sagebrush country.

**State Fair Matters.**

**EDITOR GAZETTE**—Since returning from California my attention has been called to the varying criticisms of the affairs of the State Agricultural Society.

Let criticism answer criticism, the managers of the Society will realize the sound common sense of Fred Grant's quaint saying that "it is easier to handle a surplus than a deficiency." The fact stands that to improve the State Fair grounds, so a meeting can be held in 1888, about seven thousand five hundred dollars has got to be expended in improvements and payment of matured obligations of 1887 now out-standing.

If that money can be raised by donation, then a discreetly arranged premium list can be met out of the current income of the fall meeting.

Our small State is distributed over a broad limit of territory. Attendance is difficult and expensive to the people of the State and the fair should be made as cheap and beneficial to exhibitors and visitors as possible, and any future meeting of our State Fair that pays current expenses will be as successful financially as any meeting heretofore held. Respectfully,  
B. F. LENTE.

**The Delayed Train.**

No. 4, which should have arrived here last night at 10:10, did not put in an appearance until 10:55 this morning, much to the disgust of travelers who were compelled to lay-over here. The cause for the poor time is ascribed to the frigid weather which renders rapid traveling on the rail extremely dangerous. The extreme cold is liable to crack the heavy rails as if they were pipe-stems, and the slower the trains go the less liable is an accident to occur. Of course the railroad company is censured by disgruntled travelers, who, instead, should be grateful that such precautions are taken.

**Glanders in Mason Valley.**

The Lyon County Times says there are at least twenty-five cases of glanders among horses in Mason Valley. T. B. Smith of Smith Valley has lost about thirteen head of horses from glanders, having the animals killed as soon as he found out what ailed them. It is believed that the disease was brought into the valley by a band of horses from California.

**SLEEPLESS NIGHTS** made miserable by that terrible cough. Shiloh's Cure is the remedy for you. For sale by Osburn & Shoemaker.

**THE REV. GEO. H. THAYER**, of Boston, Ind., says: "Shiloh's Cure is the only remedy for you. For sale by Osburn & Shoemaker."

**BREVITIES.**

**Local and General Intelligence.**

Scarlet fever is abating at Winnemucca.

Lander county has \$53,811.13 in its treasury.

Justice Young's docket scored another blank to-day.

C. Colombet, the cattle buyer, is registered at the Depot Hotel.

Battle Mountain expects to have a building boom in the Spring.

Snow lies from 15 to 18 inches deep in the valleys of Eastern Oregon.

A case of smallpox is reported at China Flat, six miles from Dowlerville.

The late storm did damage to the Truckee river ice crop to the extent of \$50,000.

One solitary drunk was the extent of the local constabulary's work yesterday.

The public schools of Loyalton and Sierra City are closed on account of the small-pox epidemic.

The sales of lots in the Thermano colony, Elko county, Cal., since December 20, have aggregated \$50,000.

At Cedarville, Cal., the people have voted in favor of issuing bonds to build an \$8,000 school-house.

The Elko Independent denies the report that anthracite coal has been found in abundance in Humboldt county.

A per capita tax of \$2 has been levied in Sierra county to meet the expenses entailed by the smallpox epidemic.

Joe Germain, mine host of the Winnemucca hotel, was a passenger on the delayed west-bound train this morning.

The execution of One-Armed Jim, the Indian who killed Andrew Kinnegar, is set for the 18th inst. at Winnemucca.

Smoky Valley, Nye county, has fifteen inches of snow on a level. This time last year the valley was as dry as a bone.

The road between Elko and Tuscarora has been staked out in order to prevent travelers from getting lost in the deep snow.

Feed is reported very scarce on the ranges of Northern California near the coast, and large numbers of sheep and cattle are dying.

Dominick Waldvogel, a dairyman and old citizen of Eureka, was thrown from his wagon last Wednesday and instantly killed.

Senator Fair, who is now in Washington, is credited with saying that he will dispose of all of his mining property as soon as he can.

The Sierra Valley Leader, in its issue of the 6th inst., says: As we go to press there are sixty cases of small-pox reported in Sierra City.

In Eastern Nevada the ranchers have at last admitted that there is plenty of snow for all uses, and that the quicker it holds up the better.

Sheriff Flint to-day escorted James Murray, the burglar, to the State Prison at Carson to-day. He will work in the quarries for the next five years.

Frank Rivers, a Smith Valley, Lyon county dairyman, has a two-year-old heifer that recently gave in one week a quantity of milk which made 7 1/2 pounds of butter.

Mr. and Mrs. W. H. McNis, nee Miss Jessie Jamison, returned from their wedding trip yesterday. Tomorrow they will proceed to Carson where they will in the future reside.

A force of men were engaged in cutting away ice on the river a short distance west of the bridge today in order to allow the passage of water into the ditch on the south side of the bridge.

Mrs. Dr. Thoma is confined to her room by illness. Although her case is not serious, her mother, who resides in Sacramento, has been sent for, and is expected to arrive here by Wednesday.

W. C. McCoy, one of the pioneers of Eureka district and a locator of the Richmond mine, fell down a cellar in Eureka, Tuesday evening, and is thought to be dying of concussion of the brain.

A dispatch from Elko to the San Francisco Chronicle states that Tom Short, one of the most prominent ranchers of Ruby Valley, was killed in his own house last Friday by a man named Smith. No particulars.

The GAZETTE and Truckee Register editors have caused the editor of the Sierra Valley Leader to see the error of his ways. The last issue of his paper comes to hand redolent of carbolic acid, having been disinfected.

Charles Frisch, proprietor of the Pyramid house, emphatically denies the rumor that there is a case of small-pox in his house, and invites a personal inspection of the premises by any reputable physician.

W. R. Chamberlain avers that since he has been a resident of Reno, and he has been here since there was a town, "navigation" on the raging Truckee has never been closed until now. It is now possible for a person to cross the river on foot from bank to bank.

Though the snow is not deep the weather is very cold, and stock running at large are suffering, as feed is scarce. Old cows with young calves are said to be dying in Humboldt county, but fortunately there are not many of them.

The Postal Department has issued an order that the postal clerks on trains will no longer be allowed to cancel stamps and that all letters deposited with such clerks will be dropped at the next office—thus delaying them at least one day.

Cal. Dickie, Superintendent of the Gray Eagle mine, Granite Hill, went out to the mine yesterday. The work of development is being rapidly pushed ahead, and the indications are that a good body of ore will be uncovered shortly.

Henry Henderson, notwithstanding his long confinement, was in a happy state of mind to-day when the reporter called at the county jail. He is anxiously awaiting the day of the trial, and is confident he will come out all right. He said that he was preparing a statement of his side of the case, and will publish it in the GAZETTE.

**Poor Clara Belle.**

It is reported in San Francisco that the conflict in the McDonald clan will be compromised, and that the criminal cases will be dropped and the divorce suits dismissed. The terms on which the compromise is to be made, it is stated, are for Clara Belle to give up her child and leave the State, she in return to receive a monthly allowance. It is probable, if the compromise is made, that the charges against Seneca Swalm, her alleged paramour, will also be dismissed.

Nothing has created so much talk as Breuner's elegant and immense line of Bedroom and Parlor Furniture. Suites for two, three, four, five and six hundred dollars. We can furnish you with a suite—the finest in the land or the cheapest to be had. Our trade has demanded that we carry the richest lines, and to-day we are shipping goods to San Francisco, Oakland and other parts of the State. San Francisco merchants cannot compete with us, as their store rents and other expenses are enormously high. Everybody admits that we sell the cheapest, and everyone who visits our stores says our assortment is as elegant as it is large.

If you desire anything in our line and cannot visit our stores, write us stating articles you want and will send you photographs and prices, and give you the same satisfaction as if you were selecting in our stores. Send for photograph of our \$20.00 bedroom suite.

## For Sale

**\$50,000.** Mrs. Edwards offers her ranch for sale. The ranch is on the Virginia road, the most delightful of all the country roads in Nevada. It is located eight miles from Reno and in a fertile agricultural section. The ranch consists of about 80 acres and a valuable water right. The ranch has long had the reputation of being one of the most productive of its size of all the ranches in the Truckee Meadows. This year it has produced 800 tons of hay, pasture for 200 head of stock, vegetables and other products in value about \$5,000. By the expenditure of a few hundred dollars the ranch could be made to produce twice as much. The soil is admirably adapted to the raising of alfalfa stock and vegetables. It has an excellent house, barn and other buildings, a good orchard and other improvements. \$75,000; \$5,000 cash and the remainder in five equal annual installments. Interest at 6 per cent per annum.

**\$13,650.** A Santa's ranch located east from Reno is offered for sale. It consists of 45 acres, which will be sold at \$300 per acre, or for \$13,650 and on easy terms of payment. There is a fine place good house of eight rooms, a fine barn, and other buildings. The place has been in one irrigating water and as many as fifty springs of excellent water. The ranch yielded this year 150 tons of hay, and pasture valued at not less than \$1,200. The total value of this year's yield is not less than \$3,000, and some one year's yield has amounted to \$5,000. The small place is especially desirable as a stock range and for this purpose would yield a handsome profit on the amount invested.

**FOR SALE.** Lots 10, 11, and 12, in Block 4, Marsh's Addition, south side of river, very desirable location. House of two rooms (hard finished) and shed. Lots cleared; size, each 50 by 150. A bargain.

**\$300.** Lot 50x175 feet, on the Virginia road, short distance from court house; very desirable location, and the best bargain in Reno for the price. Perfect title; ditch flows through the property.

**80 ACRES OF LAND** under improvement; good buildings and fence; 20 acres in alfalfa; choice orchard; bearing fruit trees; 5,000 nursery trees; good well. Situated 1/2 mile from the C.P. railroad depot.

**FOR SALE.** Horse and lot on east side of Virginia street, opposite residence of B. F. Latta. This is a very desirable piece of property.

**FOR SALE.** Lot 124 1/2 ft. by 140 ft., on east side of Virginia street, opposite residence of B. F. Latta. This is a very desirable piece of property.

**40 ACRES OF LAND;** 26 acres in alfalfa; 1700 forest trees, all under fence. Situated 1/2 mile from the C.P. railroad depot. Rollin's land, beautifully situated for residences.

**560 ACRES;** 100 acres enclosed by a substantial fence; 90 acres under cultivation; balance wild land good for pasture. Will cut 250 tons alfalfa this year. Two acres of young and bearing orchard; good seed land.

Perfect title to 56 inches of water. New two-story house of three rooms and bath; good barn. Situated 1/2 mile from Reno.

Price, \$5,000—\$1,000 down, balance on time at reasonable interest.

**3,000 ACRES** under substantial fence. ABUNDANCE OF WATER FOR IRRIGATION.

300 acres in wheat, barley and alfalfa. Controls an immense outside range for cattle or sheep.

\$2500 WORTH OF HORSES, MARES AND COLTS.

All kinds of farming utensils. Machinery, Wagons, blacksmith shop, etc., etc.

Plenty of water. The ranch lies 20 miles south of Austin. This would make one of the best stock ranges in the state.

Price, \$15,000. Easy terms of payment given.

Also several large properties in Truckee Meadows; properties at Stockton, San Jose, San Francisco and Alameda.

Mines bought and sold. The firm has numerous correspondents who are dealers in mining property.

# DOGS WITH THIN SKULLS.

The Head of a Wolf and of an Indian Dog Nearly the Same.

A bleached and ghastly object was being handled recently by Mr. Frederick A. Lucas, the osteologist at the National Museum here. He had taken it from a thin-skulled dog, and explained to two or three persons that it was the skull of an Esquimaux sled dog.

"This skull," said Mr. Lucas, "bears out the stories of the rough treatment which these dogs receive. See there," pointing to a spot over the eye, where a portion of the bone had been broken off, "it took a heavy blow to do that; and look at this leg," continued the bone man, taking several long bones from the box and deftly putting them together. "You see that leg was broken and was never allowed to heal perfectly. That dog had to limp along very painfully after he was injured. See how this joint was deformed and how it must have creaked," he continued, working on the bones against the other like a pump-handle, to show the defect in the joint.

Mr. Lucas stopped in front of a case wherein were displayed a series of skulls arranged in a row for comparison. The labels showed that two skulls in the upper row, beginning on the right, were those of Indian dogs; next to them was that of an Egyptian mummied dog, and then in order the skulls of a Newfoundland, of a common dog, a Chinese Pekingese dog, a bulldog, a setter, a Saint Bernard, a bulldog, and an English pug. In another row below was a series of skulls of wild dogs—wolves, coyotes, and foxes.

"This series will show," said Mr. Lucas, "the effect of domestication, the development of the cranium under domestication. The skull of the Indian dog there, you see, differs very little from that of the wolf below it. You see it has very little forehead and a very long dog. Now, if you go along, now," he continued, "you will find the facial angle increases, the forehead is developed at the expense of the jaw, which becomes shorter. This collection gives merely an outline. There are many intermediate steps. Dogs are classified into mastiffs, hounds, spaniels, and wolf dogs. The wolf dogs, such as these," continued Mr. Lucas, pointing to the Indian dogs and the Egyptian dogs, "are nearest the original stock. In fact, it is very difficult to domesticate a dog. The skull of a wolf from that of an Indian dog. Yes, the teeth are the same, and you will notice all along the line there is a similarity in the teeth. When you reach the pug, at the end, the teeth are crowded and the incisors lap over. Then the teeth of the pug are not so large or strong. It has been raised on soft food, and has not had to rend or tear its prey. As you go up the scale the intelligence of the dogs increases, and as you go down towards the wolf, the animals increase in brute ferocity. Yes, the bulldog has a high forehead," observed Mr. Lucas, in reply to a remark of the reporter, expressing surprise that an animal which served in literature as a type of brute ferocity should stand so well up in the scale of cranial development. "It has a high forehead, and will become very much attached to its master. It is renowned for its courage, and will fly at the head of an angry dog. Any dog may be taught to attack a man."—New York Mail and Express.

## INFANTILE SKIN DISEASES

Our oldest child, now six years of age, when an infant six months old was attacked with a virulent skin disease, the disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with more incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blistered, and malodorous. We had no rest at night, no peace by day. Finally, we were advised to try the CUTICURA REMEDY. The effect was simply marvelous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as a sheet, and never been attacked. In my opinion your valuable remedies saved his life, and today he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred.

## THOUSANDS OF CHILDREN

Are born into the world every day with some eccentrics affection, such as milk crust, scall rash, scurvy, or dandruff, sure to develop into an agonizing eczema, itching, burning, and disfigurement of which make life a prolonged torture unless properly treated.

A warm bath with CUTICURA SOAP, an application of CUTICURA, and a single application of CUTICURA RESOLVENT, the New Blood Purifier, are often sufficient to arrest the progress of the disease, and point to a speedy and permanent cure.

Hence, no mother who loves her children, who takes pride in their beauty, purity, and health; and in bestowing upon them a child's greatest inheritance—a skin without a blemish, and a body nourished by pure blood—should fail to make trial of the CUTICURA REMEDY.

Sold everywhere. Price, CUTICURA, 50c; SOAP, 25c; RESOLVENT, 50c. Prepared by the PUTNER DRUG AND CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.
